

# TERRA TRIP

## Terralights

### VARIABLE APERTURE MODEL

T080 & T081

This means you can alter the light source shape

Aperture fully open - creates a circular light effect

Aperture partially open - creates an oval light effect

### STANDARD APERTURE

T082 & T083

This means you have a fixed light source which comes out straight from the end

## Terratrip Terralights

**Terratrip are the world leaders in motorsport rally technology. With a reputation for providing leading edge robust and reliable technology, Terratrip deliver every time. With 30 years experience in the design and development of Rallying technology Terratrip have grown to become market leaders in this specialist field.**

**When you buy Terratrip, you are buying a thoroughbred, race proven product - trusted by world leaders in rally motorsport.**

### BENEFITS AND FEATURES

- Variable aperture model, dashboard mounted with light coming out of the side
- Straight model, dashboard mounted with light coming out of the end
- Both available in 12" and 18" length
- On/off switch in base

thoroughbred performance - when every second counts

## Battery Switches

2 types are available.

### BATTERY MASTER SWITCH with cover and key

T060

The item T060 is a simple switch which will isolate the car battery. The current ratings are 100 amperes continuous, 300 amperes short term.

### FIA BATTERY MASTER SWITCH with cover and key

T061

Part number T061 has additional contacts to control the output of the alternator when the switch is turned to the 'off' position. A resistor is provided to load the alternator for safety purposes. The current ratings are 100 amperes continuous and 500 amperes short term.

Both types are provided with a removable red switch lever. The lever is captivated by the switch when in the 'on' position.

**VARIABLE  
APERTURE  
MODEL**

T080 & T081

**STANDARD  
MODEL**

T082 & T083

## TERRALIGHTS

(close-up detail of switch)
