PROFESSIONAL
RADIO CONTROL

The (T038)
Professional Radio
Control plugs into the
back of the (T036)
Professional amplifier,
but also works with
the (T046) Professional
Plus - which you then
link into a radio.

Made from high quality, super strong moulded plastic

SIZE AND DIMENSIONS OF THE TERRAPHONE PROFESSIONAL PLUS

AMPLIFIERS

Designed for the reliability with a range of three amplifiers. Choose from Clubman Amplifier (T023), Professional (T036) or Peltor compatible Professional Plus (T046). You can build onto any of the amplifiers with Auxiliary Audio IN/OUT (external radio from crew or music etc). The Professional and Professional Plus amplifiers also have Audio IN, and connection for a radio lead that allows the use of a 2 way radio using our part T038.

All amplifiers have separate volume dials, power ON LED and the Professional and Professional Plus have separate power ON switch and RADIO ON/OFF switch. All amplifiers are powered from the vehicles 12 volt supply. Supplied with Power lead and Auxiliary Audio lead.

TERRAPHONE

With many years experience in producing intercoms, Terraphone offers outstanding performance and value.

BENEFITS AND FEATURES

Clubman

- Two volume controls, incorporates on/off switch
- Powered from car battery
- Full face and open face helmet options
- Audio in/out output socket to tape recorder (recording pace notes) or video camera

Professional

- Noise cancelling microphones for improved sound reproduction
- Optional kit to interface with 2 way radio
- Audio in/out output socket to tape recorder (recording pace notes) or video camera

Professional Plus

- Peltor compatible
- Optional kit to interface with 2 way radio
- Audio in/out output socket to tape recorder (recording pace notes) or video camera

With this system you can use Peltor headsets with Terraphone PLUS amplifier or vice versa or of course exclusively use Terraphone PLUS parts.

HEADSETS

We offer a full range of helmet headsets and practice headsets. Clubman series headsets use our standard microphone, the Professional series use Noise Cancelling microphone and the Professional Plus is Peltor compatible and uses a Dynamic type microphone giving a similar sound to a Peltor intercom.

Peltor Headset Adapter (T040): Used to adapt a Peltor headset so it can be connected directly into our Clubman or Professional series of amplifiers (T023 or T036).

Professional Radio Controls: Used to connect a mobile telephone or mobile radio to our amplifiers. Supplied with PTT switch and all the wiring to connect to any radio.

BENEFITS AND FEATURES

- Non helmet practice headsets are available for both models of intercom for crew communication on road sections or when preparing pacenotes
- Available in both full face and open face headset options.
